Garments may vary in size specification depending on the style and ease allowance but will still fit the body size indicated.

Age is just an approximation of size. The height of the child gives a much better indication of which size to buy.

Adults Sizes: S-XXL / Youths Sizes: XXS-XS

TECH GUIDE

DLX® ECO

Products carrying the DLX® Eco label are designed and manufactured to provide reliable high performance while reducing environmental impact. Working with independent services such as Bluesign® & Thermolite® EcoMade to provide transparent solutions for sustainable materials, we are paving the way for a better future for us and the planet we love.

DLX® MEMBRANE

The DLX® MEMBRANE allows the body’s water vapour to pass freely. This reduces condensation inside while preventing rain and snow from penetrating. The membrane is protected by a durable outer-shell and seams are taped to further improve wet weather protection.

DLX® STRETCH

Optimum stretch capabilities, ideal for active, highly mobile pursuits. Waterproof, windproof & breathable, this performance fabric is used to produce a range of taped seamed garments. Supple and durable, functional coatings and surface treatments help repel water and works with your layering system to draw moisture away from your body.

QUICKDRY

Quick Dry fabric facilitates the transport of moisture away from the body. The quick drying action of the material also means the chilling effects caused by damp clothing is massively reduced. As a result you can spend more of your day in comfort.

DLX® SKIN

Intelligent fabric that effectively draws moisture away from the skin. This moisture quickly evaporates when brought to the surface of the fabric, leaving you dry and comfortable.

DLX® ATHLETIC

Designed for the crossover athlete, this capsule collection provides gear that you need to up your game, indoors or outdoors. It gives you comfort and performance when pounding the pavement, track or gym.

DLX® UV

Specially woven fibres shield the skin underneath from the sun’s ultraviolet rays, providing an added layer of protection from the elements.

DWR

DWR is a durable water repellent finish which provides added protection from water droplets on the outer layer of the garment.

antibacterial

The antibacterial treatment prevents bacterial growth, maintaining the natural balance of the skin which reduces unpleasant odours. Offering the wearer natural freshness for longer.

WOMEN'S COLLECTION

Elevate your outdoor escapades with DLX – where exceptional performance meets unparalleled style, designed with the adventurous spirit in mind. As we eagerly anticipate the warmth of spring and the delight of lighter layers, our adventure-active collection awaits to meet the challenges that grace your path.

Step into a realm of versatility with our quick-drying lightweight tops, trousers, and shorts – meticulously designed for people who revel in exploration. Perfect for travel and adventure, especially under the sun's embrace, these garments redefine comfort and style for the trailblazers in the great outdoors.

Our outdoor jackets, fortified with DLX Membrane construction and precision-taped seams, aren't just ready for, but gracefully excel in, the face of summer showers. Unleash the prowess of advanced technology as you confidently navigate unpredictable weather, secure in the knowledge that DLX has you covered.

Experience year-round excellence with our softshell jackets and trousers – a steadfast choice that transcends seasons. Engineered for all-round performance, they embody DLX's commitment to enduring quality, making them your trusted companion in every outdoor pursuit, no matter the season.

DLX – where innovation meets adventure, and confidence meets performance, catering to the dynamic spirit of those who aspire to go beyond the ordinary. Embrace the journey with gear that not only meets but exceeds expectations, because your outdoor aspirations deserve to be limitless.
